Illegal Bats for the Fall 2014 Season

Bats not on the lists of Eligible or Illegal Bats should be considered illegal.

Updated June 18, 2014

For reasons of safety, City leagues will be using single wall bats only. Double and Triple walled bats are not allowed. Bats are considered illegal based on several categories, which include but are not limited to: multi-walled or similar construction, exceeds 120 bpf, contain titanium, or pose a potential significant risk for injury. **Bats in question should be checked before game time! Officials are not permitted to approve a bat that is not on the list of Eligible Bats!** Please read through this list of illegal bats as a reference. This list is a guideline and may not be limited to only these bats.
