The City of Oak Ridge, Tennessee, (City), through its Recreation and Parks Department, has given the organization listed below permission to use certain City facilities for certain activities on certain dates as scheduled and confirmed through facility permits issued by the Recreation and Parks Department.

In consideration of the City allowing the Organization to conduct certain activities upon property owned by the City, the Organization does hereby agree as follows:

1. The Organization does hereby waive any and all claims against and releases, holds harmless, and discharges the City of Oak Ridge, its successors and assigns, and any and all of its agents, employees and servants, from any and all liability of every kind, nature, character and description from and by reason of any personal injury and damages to property suffered by any member of the Organization or the Organization's participants that may arise while participating in the Organization's activities upon City-owned property; and further for any personal injury to a spectator or damages to property of a spectator should such injury or damage be caused by the Organization, its members or participants.
2. The Organization does hereby agree to procure and to maintain in full force and effect while at all times on City-owned property adequate liability insurance coverage regarding the Organization's activities upon City-owned property; said liability insurance to be in the minimum amount of \$1,000,000.00 per occurrence. Such insurance shall name the City of Oak Ridge, Tennessee, as an additional insured and the City shall be provided a copy of such insurance certificate prior to the Organization's participation in any activities upon City-owned property. It is preferred that the insurance carrier provide a ten (10) day advance written notice to the City in the event of change or cancellation.
3. The Organization further agrees that in conducting its activities upon City-owned property it shall for itself, its agents, employees and participants at all times be subject to and adhere to all rules and regulations of the City, the Recreation and Parks Department, all park rules, and all applicable City ordinances. The Organization hereby agrees to ensure the facilities are in a safe and usable condition.
4. The Organization further agrees that for its activities upon City-owned property it shall require all participants to execute waivers individually if they are adults, and by parent or guardian if they are minors, wherein all rights of action or claims against the City for injuries or damages sustained by any participant in any Organization activity upon City-owned property shall be waived, and said waiver shall be filed with the City prior to the beginning of any activity on City-owned property. A participant who has not submitted a proper, signed waiver form is not and shall not be permitted to participate in the Organization's activities upon City-owned property.
5. In the event any action is brought against the City by any person for injuries or damages occasioned upon City-owned property and/or resulting from the Organization's use of City-owned property, in addition to the provisions hereinabove set forth, the Organization agrees to be liable for and indemnify the City from any and all expenses incurred by the City in defending said action and to pay all costs and/or judgments which ultimately might be assessed or adjudicated against the City which are in excess of the liability insurance coverage hereinabove provided.

By signing this document, the Organization hereby agrees to the release of any and all claims against the City of Oak Ridge and agrees to take full responsibility and all liability for any and all claims that arise due to the Organization's activities at City facilities as outlined above. Special Event Guidelines for Planning During the COVID-19 Response

Introduction:

The novel coronavirus that causes coronavirus disease 2019 (COVID-19) is most commonly spread through person-to-person close contact (within about 6 feet). Current evidence suggests that the coronavirus may also remain viable for hours to days on surfaces made from a variety of materials. Social distancing practices and cleaning of surfaces, followed by disinfection, are best practice measures for prevention of COVID-19 and other viral respiratory illnesses in community settings. Other best practices include symptom screening and enhanced food service safety practices.

Guidelines:

In addition to the standard special event and race applications required by the City of Oak Ridge when evaluating requests for event permits, applicants are now required to provide a plan for addressing infection prevention practices that will be in place during community events. Plans should include safe practices for event organizers, participants and others who may be present in the event area. Completion of the questions below may be used to fulfill the Special Event and Race application Safe Practices requirement. This requirement will be in place until further notice.

Social distancing:

- How will the site layout be addressed to allow spacing (6 feet) between individuals and/or small groups?

- How will limits on group size be determined and enforced? _____

- Will there be requirements for Personal Protective Equipment (PPE) (Example: Facemasks and gloves)? _____

- How will the general public be distanced from event participants? (such as an event in an open park or adjacent to a greenway) _____

Disinfection protocols:

- Identify surfaces that will need to be cleaned and disinfected. (Example- restrooms, seating surfaces, podiums, food prep areas, etc.) _____

- How, and with what frequency, will surfaces be cleaned and disinfected? _____

Symptom screening:

- Will organizers and/or participants be screened for symptoms of COVID-19? _____

- If so, what screening measures will be in place? (Example: Temperature reading, symptom questionnaire, etc.) _____

Food and beverage service:

- Will food and/or beverages be provided at the event? _____
- If so, what protocols will be in place to conform to CDC and Health Department guidelines for food service? (Examples include PPE for food service workers, prohibition of communal foods, spacing of individuals waiting in lines, etc.) _____
