Safely Delivering DOE's Vision for the East Tennessee Technology Park

Then and Now

- ETPP began as the K-25 Site, part of the World War II Manhattan Project
- Built to enrich uranium for weapon to end war, later for Cold War defense and nuclear power
- Environmental cleanup began in 1980s
- K-25 Building designated one of Oak Ridge's "Manhattan Project Signature Facilities" for its essential role in Manhattan Project

K-25 Building In August 1945
